TOP

2 Possibilities

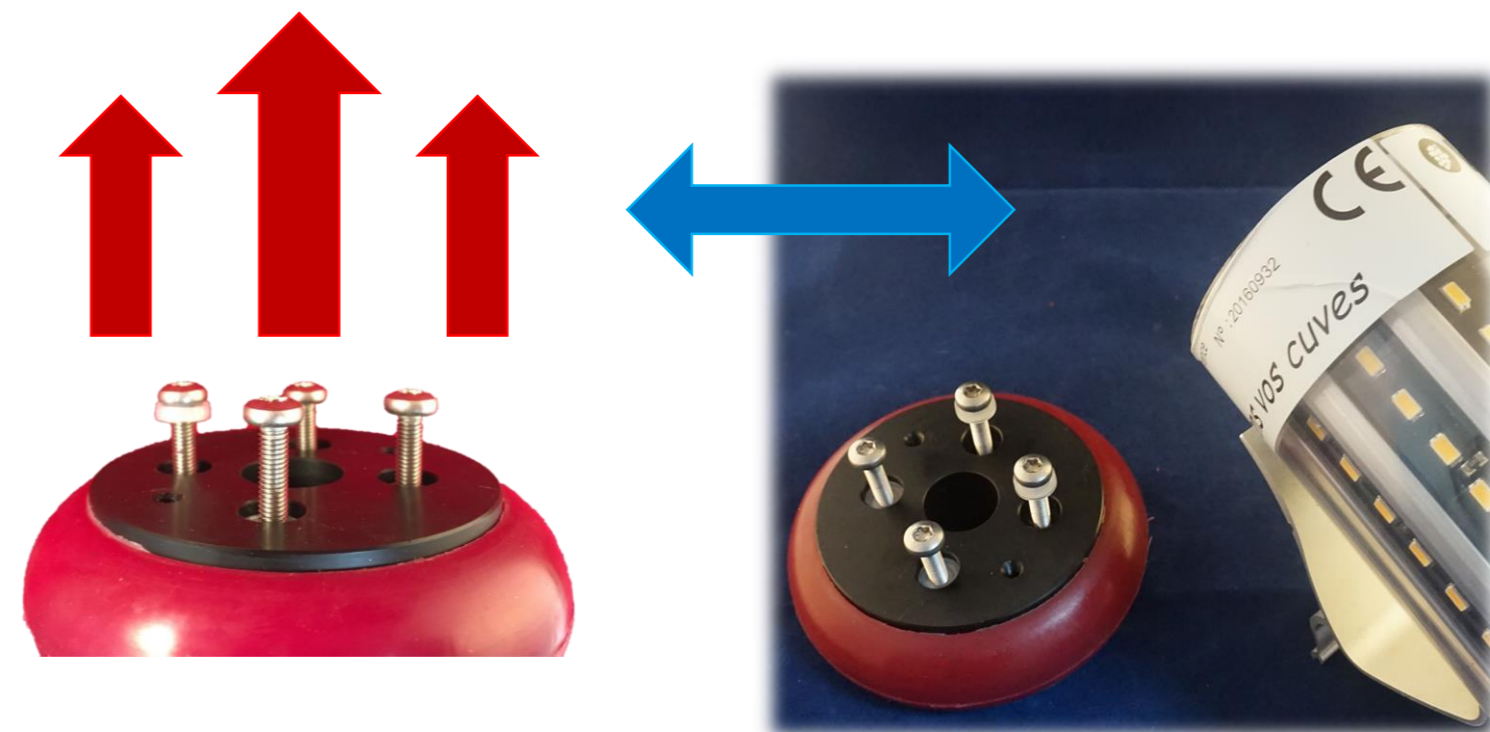

BOTTOM

The fixing hook is simple and easy to use. It can be fixed on the bottom or on the top of the lamp on demand.

Advice utilisation

- 1** Never switch off the lamp when it's wet, let it on 15 minutes minimum before switch it off.
- 2** Avoid from thermal chocs which can bring water droplets apparition inside.
- 3** If some condensation appears, loosen the top of the lampe, let it on between 15 to 30 minutes, then tighten all.

- 4** Check periodically the tightening of the 8 screw to 5 N.m
